

## Why belong to COSTA?

If you transport children as part of your business—whether it's in school buses, minivans, taxis, ambulets, or limousines—you're part of a highly regulated and closely scrutinized industry. It's not easy to keep up with continuous changes in laws, regulations, and policies from both state and federal sources, much less influence those changes.

That's what COSTA does best. We make sure our members have the latest information so they can operate legally, economically, and safely; and we work with the legislature and state agencies like DMV, DOT, SDE, DRS, DEP and DOL to make your jobs easier.

Need to know about driver licensing? taxes? equipment? Don't know where to find the right forms for your records? Wonder what you need to go out of state? Have a problem passenger you don't know how to handle? Not really sure how your transportation operation is classified? Don't even know what agency to call?

Relax. That's what we're here for. Our members tell us that the most important thing they get from their membership is someone at the end of the phone line who can answer their questions and help them solve problems—a kind of personal troubleshooter. Wouldn't you like one for your company?
